brainless zombies who lurch, untethered, around mostly unfilled and abandoned rooms.

It is about freaks stripped of any type of brain cells, devoid of introspection, glassy-eyed in their demeanor, and bereft of common decency. This is the tale of C-PAC. This is the sad little place where republicans usually gather to crow about their success.

Only they haven't had much success lately. And many chose to skip CPAC this time. The results were that of hollowed-out people marooned on an empty island where each chapter was filled with little more than blankness and an unfulfilled void.

Whom did we have there as guests? Kimberly Guilfoyle, Donald's main squeeze, showed up. And she even made a speech. Many on Twitter seemed amused — perhaps by two things — the speech and the rows and rows of empty chairs she bellowed it to. How sad.

Not to be outdone, the other member of this gruesome twosome was also there. Donald Trump Junior trying to channel Willy Wonka and failing miserably, told people — what few people there were — that some might find a gold chocolate bar under their sears and that those bars are VIP tickets to Donald Trump's CPAC reception.

Oh, Donald, stop. Willy Wonka, he's not. Perhaps more like an Oompa Loompa, though, that would do a disservice to Oompa Loompas, who worked really hard.

Steve Bannon was there, in all his grimy splendor, defiantly insisting trump won Pennsylvania in 2020. Rick "I want your social security" Scott was there, railing against — his own party. Nice.

Gym was there. And yes, he wore that bay blue shirt. Perhaps though, he has a closet full of them. He spoke as did Hillbilly sellout JD Vance who would likely never miss an opportunity to show his fake conservative bonafides — even to empty rooms.

So, in short — this was one the most forlorn, scraggly, depressing, pathetic gatherings I've ever seen. It was almost laughable. Scratch the almost. This is what happens when a political party becomes a cult.

They are all auditioning for very bad streaming services once their terms are up in Washington, Guilfoyle Boebert, MTG, Lake, are there to promote their new Milf porn Channel using the CPAC stage as a casting call. Even though nobody will want to watch them.

Trump on the other hand is bashing the Republican Party or what's left of it, to the point where the only people who are going to vote for him either in the primary or if he makes it to the general election will be about the number of people in the crowd listening to his CPAC speech. When I listened to it, it sounded as if he was cutting his own throat. Almost like music to my ears.

He will ruin everyone's chances in the primary. Then if he is still not in jail, he will run as an Independent

If there's one word I would NOT use to describe those creatures, it is "milf". I'd rather put my dick in a piranha tank.

I think that's actually Kimberly Gargoye...have you looked at her recently?

There's a huge difference between what she looked like when she was married to Gavin Newsome and now. If you want a good shock go look. Put the pictures side by side and it looks like two different people. It's really horrifying.

I always said that she looked like a drag queen. The first time I ever saw her, I actually said, "Is that a man?" to the person with me.

Pierce Brosnan's Wife Lost 120 Pounds - This Is Her Now

Noteablely

The ghost of that hideous golden idol of tRumpty Dumpty in faux patriot red white blue golf short casual with jacket to match and that twisted bizarre golden face??? I'm still suffering from psd remembering it. It's almost like the they killed his wife and he lost his breathless Remember the attendees fawning over the thing and taking pictures WITH it like they were at the golden globes? Then they hosted the following year in Hungary which had just turned fascist. What a sick bunch of f*cks they all are. ***Warning only look if you haven't recently eaten https://media-cldnry.s-nbcnews.com/image/upload/t_fit-1240w,f_auto,q_auto:best/newscoms/2021_09/3454102/210303-trump-statue-cpac-al-1202.jpg

As the GOP rails about porn and sexual perversion, their party seems to be chock-full of sexual assaulters... including, but not limited to, Guilfoyle, who was credibly accused of making moves etz, Matt Schlapp, George Santos, DeSantis' crony/donor

CPAC was a disaster for the GOP as 45 once again sucked every bit of energy and life out of a failed political party. He was strengthened by the rejections of others and made it clear he will fight to the death.

This is what happens when a political party becomes a cult.

Actually, this is what happens when the cult gets old and its adherents slowly start to abandon it.

Every time I hear a republican speak - every goddamned time - I am astonished at not only their pure evil, but their limitless STUPIDITY. It is uncanny. It is horrifying.

Jordan was standing as far away from Schlapp as Jim Comey was from Trump in that iconic moment in the WH.
